DAILY OPENS THE WAR

Commissioner's Scouting Party on Croton's Water-Shed.

Sheriffs of Three Counties Asked to Protect Them.

Many Homes and Outhouses Ordered to Be Destroyed.

WHITE PLAINS, N. Y., March 29.—Com-
missioner of Public Works Daily, accompanied

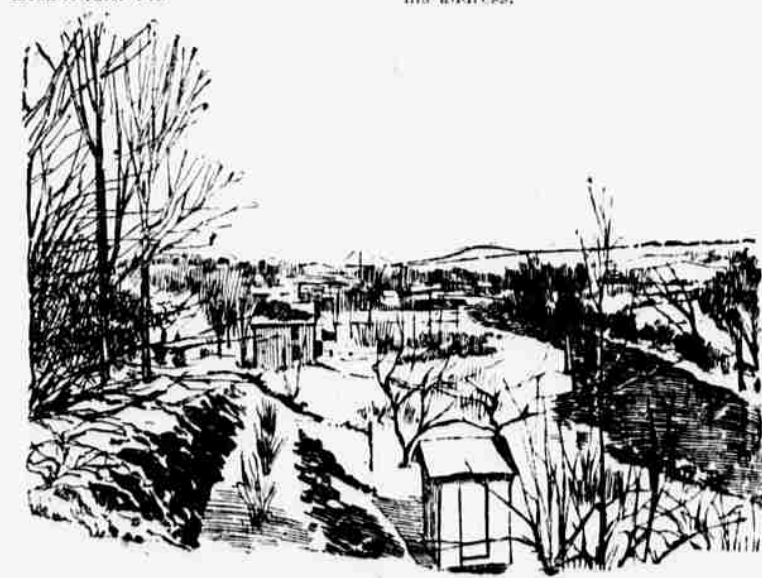

STATION OVER TANNETTA BROOK.

by his Chief Engineer, George W. Birdsell, left
New York on the 10 o'clock train over the
Hudson River this morning in his expedition
to clear away the nuisances along the Croton
water-shed, which, it has been declared, would
be a great menace to health in the event of
cholera reaching here this summer.

Commissioner Daily met Chief Engineer
Birdsell at the Grand Central depot a few
minutes before 9 o'clock and they were joined
by a party of newspaper men.

The two officials, whose work to-day may
throw the whole country bordering on the
Croton water-shed into a state of riot, pre-
ferred the smoking-car on the way to discuss
their plan of campaign, and by the time the
train reached here the day's work was
mapped out.

To an "Evening World" reporter, who
was in the party, Commissioner Daily said:
"I anticipate no trouble from the people
residing along the Croton water-shed. It is
my purpose merely to show them that a law
must be passed for the relief of the nuisances
along the Croton water-shed, and we expect
to-day's work will show them that we
mean to enforce it."

PRIVY VAULTS ALONG THE RIVER.

"I do not intend to wage any warfare;
merely make an inspection to-day of the
water-shed around Kenosia. If we meet
business we will order them to be removed,
either by purchase or destruction, but in
either case we will be guided by the law."
To this end Chief Engineer Birdsell has
arranged for some men to be on hand.

"Of course we have provided against any
opposition on the part of the residents. I
have notified the sheriffs of Westchester,
Putnam and Dutchess counties that I intend
to enforce the law, and of course I expect all
necessary assistance from them."

Mr. McGowan, however, as I say, will
merely consist of visiting the water-shed
round Kenosia and disposing of the
nuisances there. Tomorrow I will go to
Mount Kisco and on Friday to Brewster and
Carmel.

Chief Engineer Birdsell said that in all there
were about 1,200 nuisances along the Croton
water-shed, principally out-houses. The total
area is about 350 square miles and a popula-
tion of about 6,000 souls there.

The principal nuisances are to be found at
Mount Kisco, but Mr. Birdsell does not
expect that any serious opposition will be en-
countered.

"A law has been passed," said Mr. Birdsell,
"which will, in the event of a nuisance being
found, allow the city to enforce it. At
White Plains, N. Y., I will take a carriage and
go to the water-shed, and on the way, and open
the law there inspecting."

The party arrived at 9:45 o'clock and com-
missioner Daily, accompanied by a force of his
deputies and Chief Engineer Birdsell, went
to the water-shed. The party proceeded along
the water-shed, and the first nuisance they
encountered was that of a widow Gardner,
whose humble little cottage stands near the
dam of the lake. The poor woman had heard
that the New York City authorities were going
to swoop down upon her and demolish the
wretched dwelling she calls home.

Commissioner Daily, Chief Engineer Bird-
sell and lawyer Dykman, accompanied by their
carriage and met Mrs. Gardner. They told

CUTTERS STARTLED.

Manufacturers Make Their First Really Aggressive Move.

The Federalists Must Appear Before Justice Lawrence.

To Show Cause Why They Should Not Cease Interference.

A bomb was exploded to-day in the Fed-
eration Garment Cutters' camp by the Clothing
Manufacturers' Association, who, at 1
o'clock this morning, served an order on Gen-
eral Secretary Charles F. Reichers to show
cause why the United Garment Workers of
America should not be permanently enjoined
from interfering with the clothing trade con-
trolled by the manufacturers.

The order is directed to A. J. Felt, Henry
White, A. Sussman and Charles F. Reichers
and was made returnable at 11 o'clock
this forenoon before Justice Lawrence.

This is the first really aggressive step taken
by any of the belligerents in the present
fight between the manufacturers and the
Federation Garment Cutters since the lock-
out last February.

Great consternation prevailed among the
Federationists when it became known that
they were summoned before the highest
State tribunal of original jurisdiction to
answer for having invited retail clothing
firms to refuse to handle goods turned out
by some of the shops of the Manufacturers' Association.

At the mass-meeting of Federation Cutters
in Beethoven Hall this morning President
Zacharias said:

"Before proceeding with the business of the
day I should like you to choose a temporary
Secretary, as Secretaries Reichers and Harry
White have been unavoidably detained else-
where. The reason for their absence cannot
be divulged just now, but will be satisfac-
torily explained later on."

This was evidently said with a view to pre-
vent the press from knowing the names of
those who had been served upon by the
Manufacturers' Association, and which also necessitated the
presence of Secretary White in court this
morning.

The matter was treated with quite as much
secrecy by the Federation Cutters as it was
by the Manufacturers' Association, affecting
Mendelsohn, of their Association, affecting
considerable surprise when asked concern-
ing it.

"I do not know," he said, "that the order
would be served so soon. In fact, I had only
just received it, and I had not yet had time
to consider it. I am, however, sure that a
step was contemplated at all."

Secretary Westbrooke and James A. Wright,
of the Federation Cutters, were not present
entirely uncommittal on the subject.

"Anything we have to say," was Mr.
Wright's reply to the question, "will be
given out this afternoon."

The announcement that President Samuel
McGowan, of the Federation of Labor, would
address the meeting drew an immense crowd
to Beethoven Hall this morning.

The attorney who represents the order
issued by the Manufacturers' Association, was
addressed to the Federation Cutters, who
were entirely uncommittal on the subject.

"The Federation of Labor," said Mr. Wright,
"is not a party to this matter. It is a matter
between the Manufacturers' Association and
the Federation Garment Cutters. We are not
interested in it."

Justice Lawrence granted an adjournment
for one week in the hearing of arguments on
the injunction, imposing as a condition in
the mean while that the Garment-cutters
should not issue any more boycotting cir-
culars.

KEYPORT'S STRIKE ENDED.

The Contractors Paid the Water Workers This Morning.

KEYPORT, N. J., March 29.—The strikers
on the water system returned to work this
morning, the contractors having paid the
men last yesterday afternoon.

The strikers made threats that if it should
be brought before them that they would not
return to work until they were paid. The
men returned to work, and operations were
resumed this morning.

The work will be continued until it is
finished, which will be about May 1.

COREMAKERS GO OUT.

They Had Demanded in Vain the Discharge of a Non-Unionist.

ELIZABETH, N. J., March 29.—Seven-
ty-five coremakers employed at the
Worthington Pump Works struck work
this morning on account of the firm's
refusal to discharge a non-unionist, who
has been employed at the foundry for
two weeks.

The company employs over four hun-
dred men, and unless the strikers re-
turn to their places are speedily faced
with a suspension of operations.

LIVED FAST, STOLE THOUSANDS.

BERKELEY, March 29.—Charles F. Jones,
manager for the American Promoters Com-
pany, has disappeared, leaving a letter con-
fessing that he is a defaulter.

The amount of his shortage is placed at
somewhere between \$10,000 and \$20,000.

The bank books of the company cannot be
found and it is supposed. Jones took them
with him. Jones had been living extrava-
gantly and playing the horse and the roulette
game. The head office of the company is in
Chicago.

New Jersey Militia Commissions.
TRENTON, N. J., March 29.—Adjutant-
General Stryker has issued the following com-
missions: Henry W. Freeman, Major First Regi-
ment; Herbert C. Van Houten, second Lieut-
enant Company F, Fourth Regiment; Edward
J. Smith, second Lieut-tenant Company B, Fourth
Regiment; and others.

"Admiral."
The one strictly high-class cigarette on the
American market.

BUCHANAN NERVOUS.

Testimony of Witness Macomber Plainly Worries Him.

Lawyer Brooke's Cross-Examina- tion of Little Use.

A Pugnacious Spectator Ejected from the Court-Room.

A ripple of excitement opened the day in
Part III. of the Court of General Sessions
where Dr. Robert W. Buchanan is on trial
for his life on the charge of having poisoned
his wife with morphine.

The excitement was occasioned by a robust
youth who replied indignantly to the queries
of court officer Charles Wentz as to the
nature of his business in court.

The upshot of it all was that the robust
young man stuck his clinched fist in the face
of the officer and was hustled out of court
and out of the town-stone Temple of Jus-
tice much to his discomfort.

DR. BUCHANAN.

Who married Buchanan and Mrs. Buchanan.
The cross-examination of Richard W. Mac-
omber, Dr. Buchanan's former business friend
and confidant, was taken up by Charles W.
Brooke, of counsel for Buchanan, today.

Buchanan, whose nervousness was ap-
parent yesterday, and became almost
unbearable to-day, was asked by Macomber
to state the hour for advancing the
time of the accused after the suspension of his
trial was first expressed in the public prints.

He plainly expressed indifference, but it was
not so successful as on the previous days.

Among the interested spectators today was
District Attorney Rich, of Cayuga county.
There were three fashionably dressed women
in the audience.

LAWYER BROOKE CROSS-EXAMINES.

Mr. Brooke led witness Macomber over the
whole story of the frightened look and action
of Buchanan after "The World" had first
published the story of his poisoning of his
divorced wife and the suspicion of James
M. Smith of the death of Mrs. Buchanan.

Macomber said that when Dr. Buchanan
told him in March, 1902, that he was going
to "dump the old woman," meaning
Mrs. Buchanan, of whose name he was
afraid to speak, he was not at all
surprised.

Macomber, however, testified that Bucha-
nan had told him that he was going to
"dump the old woman," meaning Mrs. Bucha-
nan, of whose name he was afraid to speak.

Macomber, however, testified that Bucha-
nan had told him that he was going to
"dump the old woman," meaning Mrs. Bucha-
nan, of whose name he was afraid to speak.

Macomber, however, testified that Bucha-

AT LAST!

The Defilement of New York's Water Supply is to be Stopped.

Commissioner Bryant Out.

His Resignation Tendered to Mayor Gilroy This Afternoon.

Mayor Gilroy this afternoon received
the resignation of Dr. Joseph D. Bryant
as Health Commissioner. It is worded
as follows:

"I have the honor to acknowledge the receipt
of your letter of the 28th inst., and in reply
to inform you that I have accepted of your
resignation as Health Commissioner of the
City of New York."

The White Star line steamship Teu-
tonia, which arrived at the pier at 8:30
A. M. to-day reports that at 1 P. M. A. M.
to-day in latitude 45° 22' longitude 72° 20',
the steamer "Chester," from
Southampton for New York, having in
tow a North German Lloyd steamer,
with machinery disabled, the steamer
had two masts, and is probably the
Strasbourg, from Bremen for New York
March 12.

The Strasbourg does not represent the
lost steamer of the North German Lloyd
company's vessels. She has only limited
accommodations for cabin passengers,
but her stowage room is large and she
is a single screw vessel of 3,172
tons. Her engines develop a capacity
of 1,000 horse power. She is a compara-
tively new boat, and is equipped with
water-tight compartments and collision
bulkheads for the purpose of making her
sinking impossible.

The Strasbourg left Bremen on March
12. She was due on Monday, and con-
siderable anxiety has been felt by those
connected with the ship, who have been
hoping for her safe arrival.

The value of the Strasbourg and the
cargo is worth considerably over \$100,000,
so that the amount of the salvage
will be large.

The point where the Teutonia passed
the vessel is about 10 miles east of
Fire Island. The Chester also is 10
miles east of Fire Island, and is a
considerable distance out at sea. Both
vessels are expected to arrive late this
afternoon.

The Teutonia brings 217 men, 100 pas-
sengers and 32 stowage passengers. She
made the passage in six days and one
hour over a course of 2,300 miles.

Dr. Joseph D. Bryant, Health Commissioner,
has tendered his resignation to Mayor
Gilroy. He will leave the city on the
29th inst.

Dr. Bryant was appointed by Mayor
Heath in 1897. He is a native of New
York, and has been in the city for many
years.
